Professional Summary

DevOps Engineer with hands-on experience designing and implementing scalable cloud infrastructure, CI/CD pipelines, and automated deployment workflows. Proficient in **Terraform** and managing cloud resources across **AWS** and **Azure**. Skilled in **containerization** and **orchestration** to deploy and operate cloud-native applications. **Certified Kubernetes Administrator (CKA)** focused on automation, infrastructure reliability, and DevOps best practices.

Experience

Linux Admin & DevOps Engineer

Sprylogic Technologies Ltd.

Apr 2026 – Present

On-site – Thane, Mumbai

- Administered **Ubuntu, CentOS, and Windows servers** for web applications, maintaining **100% uptime** consistently.
- Maintained **MySQL databases** and developed **shell scripts** for automated backups, boosting operational speed by **20%**.
- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Docker**, cutting deployment time by **50%**.
- Collaborated with IT operations to strengthen production environment stability, reducing system downtime by **70%**.

DevOps Engineer

Aptatt Pvt Ltd

Jan 2026 – Mar 2026

On-site – Gurugram, Haryana

- Managed cloud infrastructure on **Azure resources** to support application deployments.
- Implemented **Infrastructure as Code (IaC)** using **Terraform** to automate provisioning and configuration of Azure resources.
- Executed database migration workflows using **Azure Data Factory** to move on-premises databases to cloud environments.
- Monitored infrastructure performance using **Azure Monitor**, enabling proactive issue detection and improved reliability.
- Collaborated with development teams to streamline deployments and implement **DevOps best practices**.

Cloud Intern

Magic Bus India Foundation

Jun 2024 – Sep 2024

On-site – Thane, Mumbai

- Executed **cloud** and **DevOps workflows** in a structured training program delivered in collaboration with **Accenture**.
- Practiced **containerization** by packaging applications into containers for deployment.
- Applied **DevOps practices** to automate development workflows, enabling consistent code integration and build processes across environments.

Tools & Technical Skills

- Cloud Platforms:** AWS, Azure
- Containerization & Orchestration:** Docker, Kubernetes
- CI/CD Tools:** Jenkins, GitHub Actions, Argo CD
- Infrastructure as Code:** Terraform, Ansible
- Monitoring & Logging:** Prometheus, Grafana, ELK Stack
- Database:** MongoDB
- Programming & Scripting:** Python, Bash
- Version Control:** Git, GitHub
- Other tools:** JIRA

Projects

1. DevSecOps Starbucks Clone Application

[🔗 implementation](#)

- Built a **DevSecOps CI/CD pipeline** using **Jenkins** with **10+ stages**, enforcing automated code quality and container security checks via **SonarQube** and **Trivy**.
- Implemented multi-stage vulnerability scanning on source code and images to prevent insecure workloads on **Amazon EKS**.
- Automated **Docker image builds**, registry push, and **Kubernetes deployments** for repeatable, zero-touch releases.
- Enabled real-time observability by integrating **Prometheus** and **Grafana** for application and cluster monitoring.

2. OpenTelemetry E-Commerce Platform

[🔗 implementation](#)

- Implemented **CI/CD** and **GitOps workflows** using **GitHub Actions** and **Argo CD** for zero-touch deployments.
- Deployed and operated **20+ microservices** on **Amazon EKS** with controlled scaling and rollout strategies.
- Provisioned AWS infrastructure including **EKS, VPC, IAM, and ALB** using **Terraform** to eliminate configuration drift.
- Improved debugging and incident response through centralized observability using **Prometheus** and **Grafana**.

Certifications

- 🏆 **Certified Kubernetes Administrator (CKA)** – Linux Foundation (**Score: 90%**) [View Credentials](#)
- 🏆 **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services (**Score: 84%**) [View Credentials](#)

Education

Master of Computer Application – Thakur Institute of Management Studies, Mumbai	2026 (Pursuing)
Bachelor of Science in Information Technology – Anna Leela College, Mumbai	2024 (CGPA: 7.9)

Activities & Achievements

- Share technical blogs on [Hashnode](#), documenting DevOps concepts and certification preparation.
- Engage in challenge-based **DevOps learning**, consistently practicing tools and workflows through hands-on implementations.
- Served **2 years** in the **National Service Scheme (NSS)**, contributing to social welfare initiatives while developing teamwork, leadership, and organizational skills.
